

what's the point
in going for it and
not getting a **response**?

Response Non Turbo/Turbo & TD/Stages 1 to 3

Response Chips

The Natural Evolution of the Performance Chip, now delivering Dynamic Performance and Economy enhancements for the discerning driver wanting more. Response Chips make sense, confidently linking cost directly to the benefits that this balanced range offers the modern driver who wants more from his vehicle. The entire driving experience will be enhanced and a Response Chip is the product to provide it.

Response Range

Twenty years of experience and a genuine passion to be the best and cover the fullest range has ensured that a Response Chip is the choice for you. Fast turn around utilizing state of the art technology with expert and detailed map construction makes the Response Chip range the logical choice in increasing your vehicle's dynamic performance.

NonTurbo

Stage 1 & 2

Catering for normally aspirated vehicles, the Response NonTurbo chip makes sense. In either standard form or slightly or modified, the NonTurbo Chip delivers a progressive range of identifiable benefit to the customer, in improved driveability and performance.

Fitted

£499 to £1250

a confident **response**
is vital to improving your
driving experience

Response Car

With dramatic gains in both Power and Torque, you choose the output level and affordability, with upgrade options available. Sophisticated file manipulation offers outstanding levels of improvement not only in terms of performance but also economy.

Response Bike

Your bike's latent potential is liberated by accommodating aftermarket modifications, together with enhanced performance, power and driveability. A must for the modern range of bikes with electronic engine management which requires detailed and expert alteration to take account of modifications.

Response Truck

Substantial fuel savings with dramatic performance gains ensure that a Response Chip is the right choice. We believe that the benefits justify the investment. The savings alone cannot be ignored.

The Benefits

Response Chips offer the most up to date range, with state of the art technology delivering levels of performance and a driving experience normally out of reach. A superb

TurboandTD

Stage

We cover a huge range of Turbo and Petrol vehicles and offer enhanced gains with a fresh and enthusiastic approach to mapping. The range covers makes and models of vehicles that many tuners are not able to cover. Gains in both power and torque are impressive and are the most dynamic we have ever encountered.

Fully Fitted

£599.00

TurboandTD

Stage

2

Caters for those customers looking for the most dynamic options, who really want MORE, whether it be a standard vehicle or modified. Sophisticated detailed mapping allow gains previously not provided, appealing to many new and existing customers. Confidence in a product can be seen in its pricing making the PLUS the most popular choice.

Fully Fitted
